Mr. Steve Paquette
Stark Development Board
116 Cleveland Avenue NW
Canton, OH 44702

Dear Mr. ^{Steve}Paquette:

Thank you for meeting with me and the consultants assisting on the Akron-Canton Airport Part 150 Noise Compatibility Planning Study to discuss the proposed Airport Overlay Zone (AOZ). We are very pleased that you agree the AOZ will be a valuable means for the Airport and local jurisdictions to ensure appropriate two-way communications on potential development changes in land uses. The communications will help ensure early identification of land use compatibility issues, including potential noise disturbances and airspace conflicts.

We have met with land use jurisdictions surrounding the Airport to discuss the AOZ and were pleased to receive a uniformly positive response. Based on input we received at the meetings, I have asked the consultants to modify the proposed AOZ boundary. We will distribute a memorandum that summarizes the results of the jurisdictional meetings and presents the revised AOZ.

As you requested, we also will provide you with a draft letter of support. Please let us know if there are any other resources that will be useful to you.

We are in the final stretch of the Part 150 study. The final workshop and public hearing is scheduled for September 17, 2014, from 5 to 7 p.m., on the second floor of the terminal building. The workshop also will have stations addressing the ongoing Airport Master Plan and Sustainability Master Plan studies. We would welcome your attendance.

Thank you again for your time and contributions to this project. If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

Richard B. McQueen

Mr. Wayne Wiethe
City of Green Planning Department
1755 Town Park Blvd.
P. O. Box 278
Green, OH 44232-0278

Dear Mr. ^{Wayne}Wiethe:

Thank you for meeting with me and the consultants assisting on the Akron-Canton Airport Part 150 Noise Compatibility Planning Study to discuss the proposed Airport Overlay Zone (AOZ). We are very pleased that you agree the AOZ will be a valuable means for the City and Airport to ensure appropriate two-way communications on potential developments and changes in land uses near the Airport.

As we discussed, we will be asking the City to: (1) add the Airport to the distribution list(s) that provide advance notice of development requests or subdivision approvals, revised or amended zoning, or other land use actions within the limits of the AOZ, and (2) incorporate the AOZ into the next Comprehensive Plan update. These measures will help ensure early identification of land use compatibility issues, including potential noise disturbances and airspace conflicts.

We have met with other planning and land use entities surrounding the Airport to make the same request and were pleased to receive the same positive response. Based on input we received at the meetings, I have asked the consultants to modify the proposed AOZ boundary. Once this revision is complete, Mr. Aaron Lofurno of CHA will provide you with a GIS shapefile for your use. We also will distribute a memorandum that summarizes the results of the jurisdictional meetings and presents the revised AOZ. Please let us know if there are any other resources that will be useful to you.

We are in the final stretch of the Part 150 study. The last workshop and public hearing is scheduled for September 17, 2014; from 5 to 7 p.m.; on the second floor of the terminal building. The workshop also will have stations addressing the ongoing Airport Master Plan and Sustainability Master Plan studies. We would welcome your attendance.

Thank you again for your time and contributions to this project. If you have any questions or comments, please do not hesitate to contact me.

Massillon, OH 44646

Dear ^{Todd}Mr. Hawke:

Thank you for meeting with me and the consultants assisting on the Akron-Canton Airport Part 150 Noise Compatibility Planning Study to discuss the proposed Airport Overlay Zone (AOZ). We are very pleased that you agree the AOZ will be a valuable means for the Township and Airport to ensure appropriate two-way communications on potential developments and changes in land uses near the Airport.

As we discussed, we will be asking for the Township to: (1) add the Airport to the distribution list(s) that provide advance notice of development requests or subdivision approvals, revised or amended zoning, or other land use actions within the limits of the AOZ, and (2) incorporate the AOZ into the Township's next Comprehensive Plan update. These measures will help to ensure early identification of land use compatibility issues, including potential noise disturbances and airspace conflicts.

We have met with other planning and land use entities surrounding the Airport to make the same request and were pleased to receive similar positive responses. Based on input we received at the meetings, I have asked the consultants to modify the proposed AOZ boundary. Once this revision is complete, Mr. Aaron Lofurno of CHA will provide you with a GIS shapefile for your use. We also will distribute a memorandum that summarizes the results of the jurisdictional meetings and presents the revised AOZ. Please let us know if there are any other resources that will be useful to you.

We are in the final stretch of the Part 150 study. The last workshop and public hearing is scheduled for September 17, 2014, from 5 to 7 p.m., on the second floor of the terminal building.
